AJUSTA-BUCKETS Hydraulic Clamshells

AJUSTA-BUCKETS Hydraulic Clamshells are available in two configurations:

- Digging Clamshells have angled hydraulic cylinders for maximum power and are fitted with pin-on teeth.
- Material Handling Clamshells feature parallel hydraulic cylinders for maximum speed and have plate lip bucket edges.

Both configurations are available with our without our hydraulic rotator.

- All clamshells feature hardened pins and bushings for long wear.
- Buckets and brackets are manufactured and precision-welded in our Erie, PA facility.
- Custom sizes and configurations can be built to your specification.
- Replacement wear parts are available.

Hydraulic Clamshells are powered by 3" to 5" bore cylinders, 3000 psi maximum operating pressure. At 4 gpm flow, clamshells open in 3 seconds. The rotator is operated on sysem pilot pressure at 1000 psi maximum.

Other products

Since 1955, Ajusta-Buckets has been a leader in the design and manufacture of top quality heavy-duty attachments for the construction industry.

In addition to our line of hydraulic clamshells, Ajusta-Buckets manufactures :

- ◆ Quick-Couplers: both manual and hydraulic
- ◆ Hydraulic Swivels
- ◆ Custom Couplers and Adapters
- ◆ Buckets, rippers and other ground engaging tools
